

MORCRAFT HOMES

Built Right. From the Start.

Compact Living

With over **120 new designs** and a commitment to design, management and client excellence, Morcraft Homes will be the choice you'll be proud of.

MORCRAFT HOMES
It just gets better.

Director Steve Morcombe has over 30 years home building industry experience in Queensland and has a thirst for doing it better, which is reinforced in Morcraft Homes slogan, 'it just gets better'.

Over the past 17 years he has sold over 1500 new homes making us one of the largest locally owned new home builders on the Sunshine Coast.

With this track record we can ensure all our customers peace of mind in dealing with a financially viable and secure builder with an excellent reputation.

We have won two excellence in business awards and over 50 local and state industry awards for display homes, custom homes, spec homes, small lot homes plus best bathroom which is reflected in the diversity of design and products showcased in the new Morcraft Homes display homes.

Morcraft Homes has over 120 brand new designs ranging from 131m² to 551m² with more being developed to become part of their Designer Range of homes.

One of the key reasons for our success is our on-going design improvement, but also the company's ability to build what people want with full design flexibility to build one off designs.

Morcraft Homes is backed by a dedicated team of long term staff, subcontracted tradespeople and long term supplier relationships which span over 15 years.

Talk to one of our friendly Sales Consultants at one of our display centres and let your dream home become a reality with Morcraft Homes
- it just gets better.

“I would not build a new home on the Sunshine Coast without these features and benefits.”

Steve Morcombe DIRECTOR
MORCRAFT HOMES

MORCRAFT HOMES
Better built.
What a relief.

- ① Conventional steel reinforced footing and slab engineer design to suit your individual block. No shortcuts, footing/slab construction that has a pedigree in standing the test of time and controlling the soil stability underneath it, means fewer problems, long lasting durable and very reliable – A BIG RELIEF.
- ② All our brickwork, rendered or not runs to the concrete footing, no ugly exposed concrete edging. We found it eliminates most rising damp, stands up to elements, looks fabulous.
- ③ Termite treatment to “whole of house” to Australian Standards 3660-1, all pipes that penetrate through your slab are collar protected and every external house and external post has a fully retreatable, hidden, safe to kids, pest Termguard Reticulation system to keep termites out of your hard earned new home. Warranty on system 50 years.
- ④ Full termite treated wall frames and roof trusses with the stamp of H2 or T2, proof your homes structural integrity is protected 24 hours, 7 days a week. All of our external walls are wrapped in sisalation, protection agains damp and the elements.

Where your money goes!
⑤ 12mm thick zinc coated cyclone rods beside all openings and at 1200 centres to the perimeter wall frame of your homes. Not compulsory to use but every Morcraft Home is built with security, longevity and extra strength in mind, more protection for you.
- ⑥ Purpose designed wall ‘HardiBrace’ to strengthen and stiffen up your home against the storms and high winds of the Coast. Every home is built to ‘N3’ (41 metres per second every second) or Wind Loading W4 in the old language. W4 strength is added to our frames, trusses, windows and tie down of your roof to beat off the harsh storms and elements – more security.
- ⑦ How do you make your plaster ceilings last longer? Not fall in, not crack, not get peaks and shadows, no nail or screw head cracks, Simple use metal ceiling battens, it is the only way to comply with Australian Standards for a domestic ceiling and to eliminate ceiling issues, you can save by not having them, but you run the risk of meeting the plasterer and painter to fix issues after you move into your home.
- ⑧ Every Morcraft Home has its roof fixed to suit the high wind category ‘N3’ and has the blue/silver heavy duty sarking under to catch any condensation and to prevent leaks. It also has some thermal value, more reason to ensure your new home is built better, when you move in, what a relief.

It Just Gets Better with Morcraft Homes

It Just Gets Better.
